Web & Mobile Developer

I'm Nidal Aljuneidi, Software Developer (mobile, web and mobile), have Master Degree in Network Engineering from Depaul University, Chicago, IL, 2011, for the last 10 years I have been worked as a software developer in Bethlehem University, and finally I by the last year I have been started working as IT Instructor in Smart College for Modern Education, I would be glad to have opportunity to share my knowledge and experiences with you.

I have solid experience in developing desktop applications using Java, Web applications using PHP & Python with Odoo platform, as well mobile development using flutter/dart. You can check some of my coding on github
Njuneidi.github.io / this gate developed with flutter.
firasliblab.com / ecommerce web developed by odoo platform
And other projects in bethlehem university

I look forward to taking the next step with you.

Nidal Al Juneidi
